MassConn Forestry in a Changing Climate

Preparing for Climate Change

Foresters and natural resource professionals face the tremendous challenge of developing and implementing management actions that help ecosystems respond to climate change. The MassConn Sustainable Forest Partnership is dedicated to ensuring the sustainability of our region's forested landscape into the future and is providing this workshop to help our partners learn more about this issue. This session will:

- Provide information on current and anticipated effects of climate change on the region's forests
- Describe resources and tools that can be used to integrate climate change into forest management
- Provide communications strategies to help landowners and clients understand the importance of this type of management
- Show real-world examples of adaptation actions

How is this different from past workshops?
This workshop will provide a significant field portion to show these concepts incorporated into real-life active management. Plus, the session will offer communication strategies to help you articulate the need to focus on the future of our forests with landowners you work with.

Details

Thursday, March 31, 2016
8:30 am - 4:30 pm
Lunch will be provided.

Norcross Wildlife Sanctuary
30 Peck Road, Wales, MA

This event is free to a limited number of participants. CEUs offered, more info soon.

Interested?

Questions and RSVPs can be directed to Lisa Hayden at:
lhayden@newenglandforestry.org
or 978-952-6856, Ext. 121.

Workshop Presenter: Maria Janowiak, Asst. Dir.
Northern Institute of Applied Climate Science,
USDA Forest Service

This workshop is sponsored by the MassConn Sustainable Forest Partnership, the American Forest Foundation, and the New England Forestry Foundation and is made possible by a grant through the Wildlife Conservation Society.

- 2-yr Wildlife Conservation Society grant to partners
- NIACS Forester training – Climate-informed silvicultural practices on private land
- Resilient woodlands and wildlife habitat – demonstration sites (Norcross WL Sanctuary)
- Repeat the CAI in 2017

Creating a Peer Leader Network of Private Forest Landowners

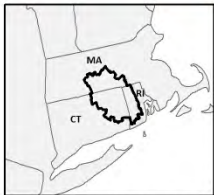

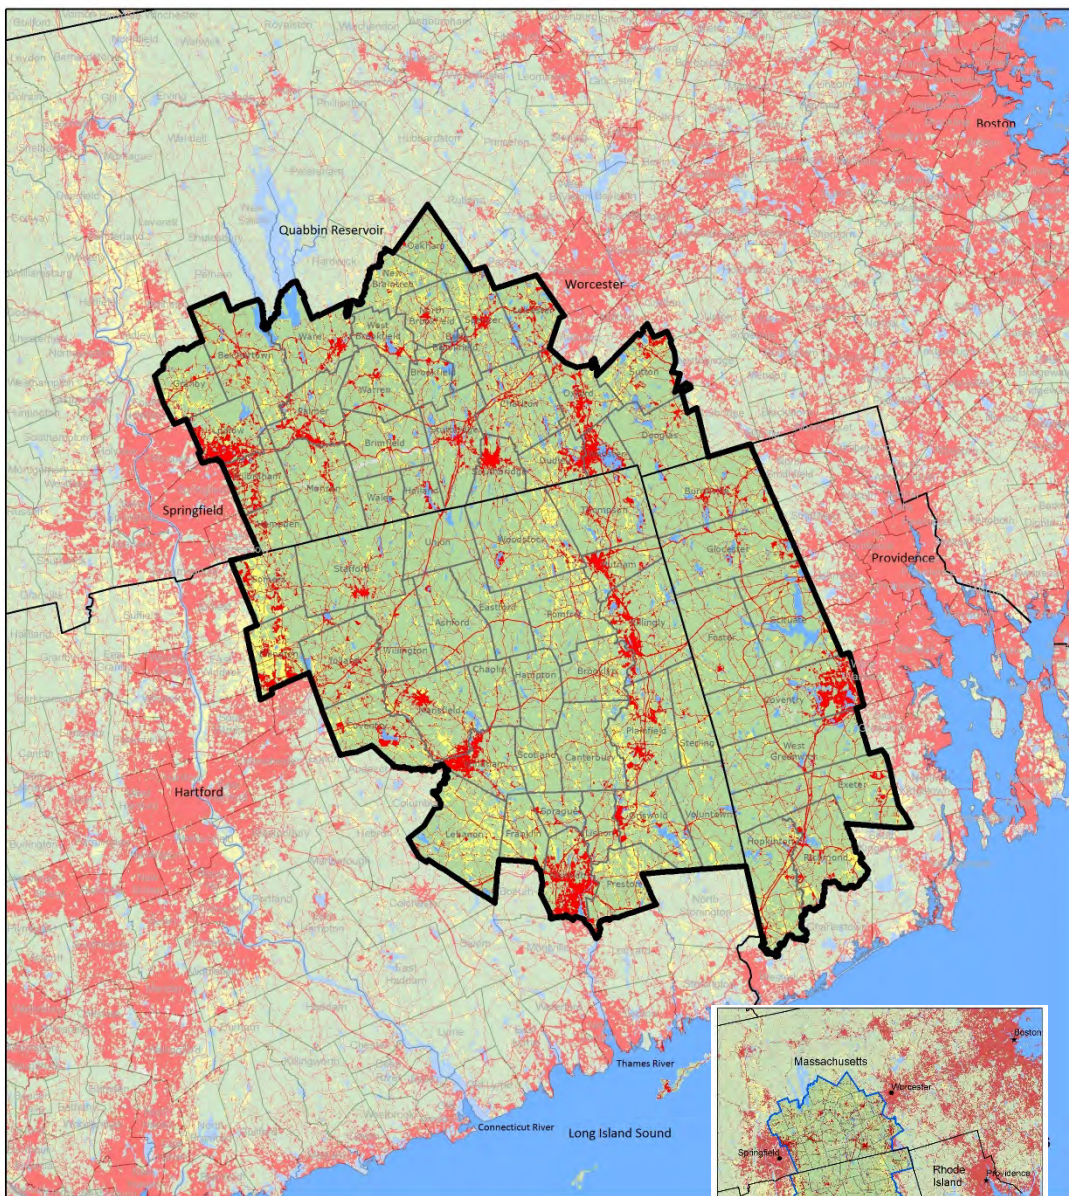

- 2 year Landscape Scale Restoration Grant.
- Coordination between 2 RCPs, 3 lead land trusts, State of Mass. D.C.R., Umass, and Mass. Assoc. of Conservation Commissions.
- 40 events, trainings, forums and property tours.
- 40 new peer leaders / woodland ambassadors.
- Set up two regional-scale, multi-parcel conservation initiatives.

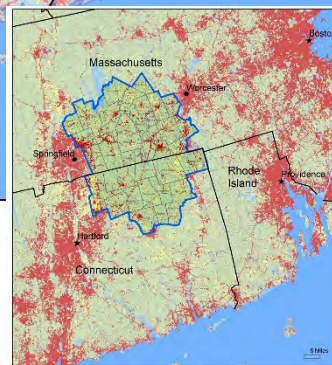

Pending application for \$7.8 million to the U.S. Natural Resources Conservation Service's *Regional Conservation Partnership Program* ("RCPP"):
The Southern New England Heritage Forest

A partnership between N.R.C.S. and:

- MassConn
- The Last Green Valley
- Northern R.I. Conservation District
- Mass. Executive Office of Energy and the Environment
- Mass. Audubon
- Ct. Audubon
