

## VERMONT - The Local Tier of Funding

In 2010, the town of Barre passed a \$100,000 conservation funds measure.  
(Data from TPL's LandVote.org)

However, most conservation measures in Vermont are passed through town meetings, which are not included in TPL's LandVote database. There does not appear to be any centralized source of information for these measures across the state.

### Municipal Contributions to Major VT Conservation Projects

This table is based on records from Vermont Land Trust, Stowe Land Trust, and the Trust for Public Land, and should not be considered a comprehensive picture of municipal contributions to land conservation in Vermont.
